

## Course update 8/31

13 17

[Daryl Posnett](#)[All Sections](#)

Hi All,

Module 1 is not quite ready for prime time. I will do my best to get the first couple of parts released today. The rest should be up sometime this week. Going forward the goal will be to have each module ready on release date. Please take the time to make sure that you are familiar with the content in Module 0.

There are no scheduled office hours the first week and the first discussion session will be announced sometime this week.

You can expect course updates via announcements, at minimum, on every day that we would normally have class. This is to give you some sense of synchronous regularity with the course. Please engage with these course updates by replying to the announcement itself.

Best,

Daryl Posnett

9:56am

Do you expect that the first discussion will be on Wednesday then? Or more likely Friday?

10:39am

The first discussion will most likely be early next week but could be as early as Friday. It will not be on Wednesday of this week.

6:03pm

Thanks for the update, to clarify, all lectures will be prerecorded correct? Also, would you like us to respond to each update or at the least every discussion?

[Daryl Posnett \(https://csus.instructure.com/courses/64966/users/43499\)](https://csus.instructure.com/courses/64966/users/43499)

7:26pm

All audio-visual instructional material, except the discussion sections, will be prerecorded. It is not necessary to respond to each update, in fact, the majority of the responses here, while pleasant and friendly, won't really contribute to your overall participation grade. The point was more that if you have a question or comment regarding anything in the update, that you should post your question in response to the update rather than elsewhere on Canvas. You are expected to read every single update and engage with the course multiple times per week.

Overall in all aspects of the online nature of the course, I'm looking for legitimate engagement with the material.
