

Redo Opportunity (One time) - OPTIONAL

- Redo multiple true/false questions, and problems 2,3,4, and 5.
- Provide written **TYPED** answers (2 pages in PDF format). Also attached your Java programs and scanned original exam.
- Resources: Books, Lecture Notes, debugger, your instructors, tutors.
- Treat this as an individual take home exam (not a group assignment).
- 10 points maximum* (no points to be given without seeing a progress is being made)

Deliverables and Midterm 1 Grade

- Due April 2th (In Canvas) – Absolutely, no late work accepted. A new column will be created.
- Multiple choice questions (Problem 1) required explanation – now that you know the answer.
- Redo Problems 2, 3, and 5 are required programming with output result (showing it does work!) **with full documentation (CSC 20 Lab style).**
- For number 3, please use Jgrasp 's debugger to draw your linked list.
- Attached your program and its output along with the PDF document in Canvas. No credits to be given without seeing a demonstrated a working program.
- Final Midterm grade will be posted in Canvas on April 16th.
